

## **Jenny Sessions, RN** Geriatric Care Manager

Jenny is a native of Atlanta and has practiced nursing in and around the area for over 30 years. Her career as a Registered Nurse began in oncology and bone marrow transplant at Emory University Hospital. Jenny developed strong clinical and psychosocial skills working with adult and pediatric patients and their families during this time. Following this experience, she was led to her next chapter in nursing to hospice and palliative care at Northeast Georgia Medical Center in Gainesville.

Jenny has a strong background serving patients, families, and caregivers through challenging situations as a bedside nurse and as the manager of clinical staff and their patients. Through these experiences, she has developed a wealth of knowledge navigating through the healthcare needs of the senior population. Jenny values every opportunity to work alongside seniors, their families, and caregivers in a partnership. It is through this partnership that trust is built, and goals are set to design the best quality of life plan.

Jenny is a gentle spirit with a caring and calm approach. Her ultimate mission is to ensure best outcomes for seniors. Jenny is a committed advocate for navigating through complex medical needs, living arrangement needs and overall care for aging seniors. Her life has been deeply enriched through the relationships she has developed while working alongside the geriatric population.
