

Robin Spiegel, RN

Geriatric Care Manager

Robin Spiegel is a seasoned healthcare professional. As a graduate of University of Florida, she began her nursing career as a medical/surgical nurse, providing bedside care for many years. She then shifted her focus to the legal side of the medical practice as a Nurse Legal Consultant at Alston & Bird, a prominent law firm. With great insight to litigation and a strong desire to return to the hospital setting, Robin began the next phase of her career as a hospital risk manager at Saint Joseph's Hospital of Atlanta. Robin focused her expertise on identifying areas of risk, ensuring patient safety and opportunities for quality improvement. After leaving the position as risk manager to spend time with her family, Robin continued her work analyzing medical data and quality of care in various aspects of the health care field.

Robin gained considerable skill and compassion in geriatrics as she cared for her elderly in-laws over the past five years. While providing them with grace and dignity, it was her goal to have them enjoy the best of their health while managing and navigating through the complexities of their medical care. With this broad range of healthcare experience, Robin is able to greatly improve the health and wellbeing of her clients and families through compassionate advocacy while providing personalized care plans that enhance the quality of her client's lives.

Robin is an avid community volunteer and participates in a wide variety of activities. As a CASA volunteer she works with children in foster care, organizes meals for the homeless, and raises awareness for breast cancer education and support. Even her dog Duncan volunteers as behavioral pet therapy dog for adults with disabilities.

Robin and her husband Mark enjoy the arts and entertainment, traveling and outdoor adventures. Her two girls who are currently in college, enjoy being with the family when they are home from school.
